

PPA - TAKING PRODUCTIVITY TO THE NEXT LEVEL

COURSE LENGTH: 0.5 DAYS

This activity based half-day course explores two main ideas: how do people make choices about how they spend their time, and how can they 'get in flow' to maximise their productivity in the time that they have. The myth of multi-tasking will be exploded and replaced with mindfulness – enabling focus in the moment. Participants will explore how mindfulness can be applied to problem solving, conflict management and empathy – leading to greater understanding, faster results and greater harmony.

The research of psychologist Mihaly Csikszentmihalyi, the father of 'flow', will be used to give participants the tools to get in a flow state where their productivity is optimised.

Mindfulness and flow are fantastic tools and ways of being, but when should someone use them? The course looks at the other major impact on productivity, time - how to decide what to spend it on.

Participants will leave an action packed half-day with both tools and strategies to optimise their productivity.
