SUPERVISING OTHERS TRAINING COURSE OUTLINE

FOREWORD

All too often great team members are promoted to a supervisory role without consideration that supervising is a completely different skill set to that which made them stand out as part of the team. One of the hardest moves to accomplish is the transition from being a team member to that of a team leader or supervisor. Someone in a supervisory role is no longer on equal terms with their peers and have to earn their respect, show authority and leadership, often having to make unpopular decisions.

This **Supervision Training Program** will help supervisors become more efficient and proficient at delegating, managing time, setting goals and expectations (for themselves and others), providing feedback, and resolving conflict. People in supervisory roles will improve their skills, confidence and general management abilities. This supervision training will benefit new supervisors and anyone that wants to improve their skills in supervising others ensuring productivity and team cohesion.

This **supervision training** covers all the important requirements of a supervisor. Through exercises, case studies, practical examples and clear guidelines you will develop the necessary skills and knowledge to achieve results through the effective supervision of staff.
