[REQUEST QUOTE](#)

1.0 DAY COURSE

This course advances the user's knowledge of functions, demonstrates how to manage data with Excel. The objective of this course is to provide delegates with a brief review of Microsoft Excel basics and then introduce the intermediate features of Excel. Delegates will be able to create, modify, enhance and print a wide variety of spreadsheets using their newly acquired skills.

The PD Training Microsoft Excel 2016 Intermediate Training Course is designed to provide a comprehensive understanding of the basic features of Excel 2016, and how to use them correctly to fulfill various tasks.

We use secure Video Conferencing with interactive features such as live polling, screen sharing, whiteboards, live chat and breakout sessions. Please discuss your preferred platform, most commonly we use Microsoft Teams, Skype for Business, Webex or Zoom upon request.

These courses are facilitated in English, and are open to people from different industries across the USA, Australia, New Zealand, Singapore, Malaysia and Hong Kong - this is a short but powerful learning experience that gives you global collaboration opportunities. Our trainers and processes have been refined to give you a personalised learning experience.

****Please note, these classes run to a very tight schedule, please follow the invitation and join the class 10-minutes prior to commencement so you are ready to participate and don't miss a minute!**

Please click the In-House Training tab to receive a free quote for courses delivered at your preferred location.

What You'll Gain:

Go further with Excel by learning to create advanced charts and formulas as well as learning time-saving formatting and visualisation features.
